

CURIOSITY AT HOME

MISSION IMPOSSIBLE

*Grab your spy gear and get ready for your next mission!
It's time to explore your home and make your way through
a maze to collect a prize.*

MATERIALS

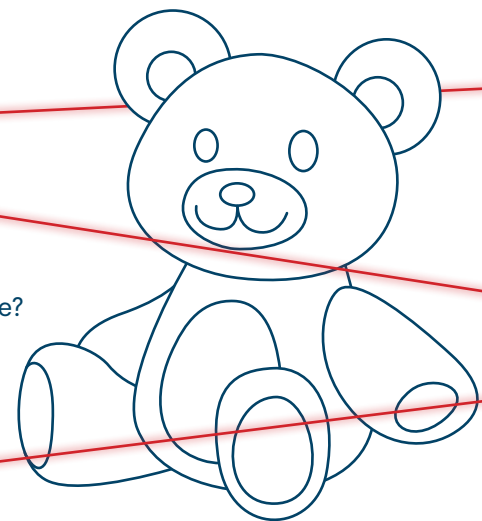

- String/Streamers
- Tape
- A Prize of some kind (Something you can carry easily, like a small stuffed animal)
- Paper (optional)
- Writing utensil (optional)
- Flashlights (optional)
- Timer/Stopwatch (optional)

INSTRUCTIONS

- Find a safe area where you can move freely. An area with nearby walls like a hallway, works well.
- Tape up the string/streamers so that they won't easily fall down if you bump into them.
- Pick one side of the course and set it up as the home base. On the other side, place the prize.
- Once your maze is set up you can start! Your mission, should you choose to accept it, is to capture the special prize and safely bring it back to your home base. You cannot touch the barriers strung across the room or you will fail your mission. Good luck agent!

EXPLORE MORE

- With a stopwatch time yourself. How long does it take? Can you beat your best time?
- Challenge another person to a race; who can complete the course the fastest?
- Turn off the lights and try to navigate the course only using a flashlight
- What other variations can you create?
