

Discovery Corps Applicant: Please give this form to an adult who is not a parent or family member.

Dear Discovery Corps Reference,

Discovery Corps is a program that puts high school aged youth on the front lines of Pacific Science Center's mission to inspire lifelong interest in science. Motivated youth will delve into Pacific Science Center with intensive, hands-on involvement in presenting educational programs for the public and participating in behind the scenes projects and training. The immediate activities are fun, but the long term benefits are great too: Youth will grow in job skills, learn about science careers and experience mentorship through their involvement with Pacific Science Center staff and experienced volunteers. The program consists of a system of training and assessment leading to increased levels of responsibility, pay and skill. Youth begin the program as volunteers, they go through a three day training session to become familiar with Pacific Science Center and start developing job skills in customer service, education and communication with people of all ages.

Once a youth has completed **approximately 100 hours** of service learning, including training, as a volunteer, he/she will be assessed on skills and performance. If expectations are met, he/she may be promoted into a paid position (assessment periods and new hire sessions will vary depending on staffing and the youth's volunteer schedule). This promotion includes increased responsibilities and more available training to assist with the continued development of skills. Paid youth can continue to work towards further promotions within the structure of the program.

As a member of Discovery Corps, youth will have the opportunity to participate in fun social events while exploring exciting new science discoveries. There are also workshops available that support the youth in their educational and career goals while developing job and life skills.

The attached recommendation form should be returned to the applicant in a sealed envelope with your signature across the seal, ensuring confidentiality.

A small pool of candidates will move to the next round of the selection process and will be contacted to schedule a personal interview. If you have questions, contact Discovery Corps at (206) 443-2884 or discovery.corps@pacsci.org

Discovery Corps is generously supported by: BECU, Costco Wholesale, Marlene and John Durbin, Glaser Foundation, Guestrin Family Foundation, Robert L. and the late Mary Ann Wiley, The Ticknor Foundation, Gretchen Hund and Ted Andrews, Sarah Huschle, Intellectual Ventures, PEMCO Insurance Company, John and Marilyn Warner, Karen Williams and Joseph Heck. Additional support comes from more than 2,500 individuals, companies, and foundations that donate to the Science Center each year. 1. How long have you known the applicant, and in what capacity?

2. This volunteer position requires a great deal of contact with the public.
How would you rate the applicant's communication skills?

Poor	Fair	Good	Great	Excellent
1	2	3	4	5

3. After looking over the program description on the first page, describe how well the applicant matches this program's emphasis on sharing knowledge, enjoying science, and participating in extracurricular activities. Give examples if possible.

4. How well does the applicant work with others in his or her own age group? Give examples if possible.

5. How would you rate his/her ability to get along with supervisors/teachers?

Poor	Fair	Good	Great	Excellent
1	2	3	4	5

6. How would you rate his/her attendance record and punctuality?

Poor	Fair	Good	Great	Excellent
1	2	3	4	5

7. What do you consider his/her strengths to be?

8. If this applicant were selected, how might we best help him/her grow? This might include personal skills and job skills, as well as science and teaching skills.

9. Do you have any reservations about the applicant in terms of his/her attitude or honesty?

10. Please feel free to share any other comments about the applicant.
