

## Pacific Science Center COVID-19 Guest Policies

***Masking and vaccination are required for all guests while on Pacific Science Center premises effective September 20, 2021.***

### **Proof of Vaccination Required**

PacSci requires proof of vaccination for entry to the premises for any purpose. Only children under 12, and people with a medical condition or sincerely held religious belief that prevents vaccination may enter the premises without proof of vaccination. Individuals who meet those criteria must provide proof of a negative COVID-19 PCR test taken within 72 hours of the entry time. **All guests, including children under 12, must show either (1) proof of vaccination or (2) a negative COVID-19 test result.**

### **Masking Required**

Masking is required while on PacSci premises for all guests aged 2 and older, regardless of vaccination status. Guests, employees and any other individuals at PacSci will be required to wear masks at all times while on PacSci premises except while actively eating or drinking. Food and beverages are not permitted within the hockey exhibition, but are allowed in other areas at PacSci. Guests who are not wearing masks properly over the mouth and nose may be asked to leave the premises without refund or exchange.

### **Information for Fully Vaccinated Guests**

A guest is considered “fully vaccinated” two weeks after the final dose of vaccine (the second dose of a two-dose mRNA vaccine such as Moderna or Pfizer, or single dose of a single-dose regimen like Johnson & Johnson). Documentation of vaccination status must be shown with valid identification and be available upon request at any time while on premises.

Acceptable forms of proof of full vaccination are:

- Vaccination card, including person’s name, type of vaccine and date of final dose OR
- a photo of a vaccination card as a separate document or stored electronically OR
- documentation of vaccination from a healthcare provider electronic health record or state Immunization Information System record

Matching photo identification must be presented with any of the above forms of proof of vaccination. Guests 18 and older must provide government-issued identification such as a drivers’ license or passport. Guests under 18 may present government-issued identification or a school photo ID as an alternative. Guests under 18 without ID must be accompanied by an adult with required identification who is able to verify their identity and provide documentation for the minor’s test results or vaccination verification.

*Self-reported vaccination records that are not verified by a healthcare provider will not be accepted.*

### **Information for Unvaccinated Guests**

Children under 12, and people with a medical condition or sincerely held religious belief that prevents vaccination may enter PacSci premises without proof of vaccination. Individuals who meet those criteria must provide proof of a negative COVID-19 PCR test taken within 72 hours of the entry time.

Acceptable forms of proof of negative COVID-19 test results are:

- Printed test result document (from the test provider or laboratory) OR
- an email or text message stored electronically from the test provider or laboratory.

Information provided in the test results should include:

- the name of the person tested,
- the type of test performed, and
- the date of the negative test result (which must be within the prior 72 hours).

*Antigen tests will not be accepted. Self-reported negative test results that are not from a test provider, laboratory, or healthcare provider will not be accepted.*

### **Guest Wellness**

If you are feeling unwell prior to your visit, please reach out to [guestservices@pacsci.org](mailto:guestservices@pacsci.org) to determine whether you may be eligible for an exchange. Avoid visiting PacSci if you have any symptoms consistent with COVID-19, have been diagnosed with COVID-19 within the past 14 days, or have been in close contact with someone with suspected or confirmed COVID-19 within the past 14 days.

### **COVID-19 Liability Waiver**

There is an inherent risk of exposure to COVID-19 in any public space where people are present. By redeeming tickets and entering PacSci premises, you agree that entry is at your own risk and you voluntarily and expressly assume all risks associated with entry. PacSci has put in place policies and preventative measures to reduce the spread of COVID-19, but cannot guarantee that exposure to or infection with COVID-19 will not occur while on PacSci premises.

### **Reservation of Rights**

PacSci reserves the right to modify existing policies or add new policies at any time with or without notice. PacSci also reserves the right to revoke or deny admission without refund at any time it is deemed necessary or prudent.
